

Jason Lou

626-629-4062 | jloubusiness2005@gmail.com | jlouigascale.github.io | Los Angeles, CA

EDUCATION

California State Polytechnic University, Pomona

B.S. Construction Engineering

Pomona, CA

Expected May 2028

Rio Hondo College

Electrician Program: Electrical Trade Foundations

Whittier, CA

Spring 2024

WORK EXPERIENCE

Swinerton (General Contractor)

Los Angeles, CA

Estimating Intern

May 2026 – Aug 2026

- Produced quantity takeoffs and trade package estimates on four active commercial pursuits: Block 100 (Newport Beach), OC WRE, Getty Core, and ELAC M&O, spanning design-build, hard bid, and CMAR
- Ran takeoffs on SD, DD, and CD drawings in On-Screen Takeoff and Bluebeam; built MasterFormat and UniFormat estimates in Destini with the OCLA estimating team
- Defined scopes, organized bin packages, and separated bid alternates to level subcontractor pricing and identify cost opportunities across trades

VCC Construction (General Contractor)

Irvine, CA

Project Management Intern

Sep 2025 – Nov 2025

- Ran full MEP takeoffs for the Moxy Hotel (Menlo Park, CA), pulling quantities from schedules and specs
- Supported hard-bid pursuits on Dick's House of Sport (Glendale, AZ) and a Las Vegas Strip storefront package
- Ran drawing overlays and slipsheets to isolate scope changes across revision sets

The Austin Company (Design-Build)

Irvine, CA

Preconstruction Intern

May 2025 – Aug 2025

- Completed a full quantity takeoff and 30% cost model across CSI Divisions 01–33 for a 156,000 SF facility at \$72.8M (\$467/SF), presenting cost assumptions and constructability findings to the estimating team
- Supported owner-side preconstruction on aerospace projects for Lockheed Martin, Northrop Grumman, Raytheon, and L3Harris, including the B648 Vestibule, a 20,000 SF mission-critical project
- Coordinated with architects, engineers, and MEP estimators through 30%, 60%, and 90% design phases, to manage change order and adjust pricing.

AMPCO Contracting Inc (Sub-Contractor)

Irvine, CA

Project Engineer Intern

Jan 2024 – Dec 2024

- Reviewed demolition plans and schedules, processed RFIs and submittals, and coordinated OAC meeting documentation

PROJECTS

JTT Gigascale LLC | Data Center Site Selection & Feasibility, Lafayette, IN

Jan 2026 – Present

- Confirmed 500 MW of available capacity with no required utility upgrades through direct engagement with Duke Energy on a target parcel in the Lafayette, IN market
- Reviewed owner documentation and engineering plans from Shook Brokerage and built power maps and feasibility analyses covering utility availability, substation proximity, interconnection timelines, zoning, and water access
- Drafted letters of intent and structured a consulting-fee model to assign purchase rights at closing, with attorney review

Cencora Distribution Facility | Tack Builders, Fontana, CA

Summer 2025

- Solicited subcontractors across all trades to confirm bid intent and coverage, identifying scope gaps ahead of the bid date
- Organized incoming proposals and performed bid leveling to compare scopes, inclusions, and exclusions across trades

ASC Reno Sustainable Building Competition | Cal Poly Pomona

Fall 2026

- Develop a full sustainable building proposal against Skanska's project requirements within a timed competition window

TECHNICAL SKILLS

Softwares: On-Screen Takeoff, Bluebeam Revu, Destini, BuildingConnected, Excel, Primavera P6, MS Project, Procore, MicroStation, SolidWorks, HTML, CSS, React

Certifications: OSHA 10-Hour, LEED Green Associate

LEADERSHIP

Social Chair, Design-Build Institute of America (DBIA)

Spring 2024 – 2025

Member, CEMA, ASCE, AGC

Spring 2024 - Present
